## “Social Networking Business Plan”

## **Auto-Shipping Program (ASP)**

The auto-shipping program (ASP) allows you to **automatically** receive your order every month.

You can cancel or modify your ASP program *at any time*.

This program is FREE and allows you :

- To never forget to be Active
- To build an everlasting organization
- To get more elevated POWER BUILDER compensations
- To build you UNILEVEL Qualification

## **Auto-Shipping Program (ASP)**

**The working is simple and very flexible**

You include your order of the month as being part of the ASP program.

It **ACTIVATES** the ASP program, and every month, this order will be sent to you automatically around the 15th after debit of the indicated payment method.

Every month, before the 15th, you can modify the content of the order, the delivery address and even the payment method!

## **Auto-Shipping Program (ASP)**

**At the end of the month ....**

If your ASP program is **ACTIVATE** for the next months, you are in Auto-Shipping and you benefit from the advantages of the **POWER BUILDER** and **UNILEVEL** plan.

But my account is often  
nourished toward the 25 of  
the month and in addition I  
don't have a credit card!

## Auto-Shipping Program (ASP)

**No worry !**

You can **disactivate** the program before the 15th of the month, and you can **reactivate** it, for free, at any moment before the end of the month at the same time as your order.

And if you don't have a credit card, you will be able to use other payment methods as Electronics Wallets or your Compensation Account for the debit!

Too easy !

From JUNIOR Web Networker, you enter in a **BONUS POOL** and from **EXECUTIVE** Web Networker you enter in a the **MILLIONNAIRE POOL**

## How it works ?

First, the SV of every product are distributed this way :

**Then** for the **BONUS POOL**, one calculate the SV on 3, 6 or 9 levels (compressed) of every qualified member from JUNIOR to INTERNATIONAL.

The SV of every member will represent a % relatively to the other SV of qualified members.

The amount of the POOL is given on this %.

For the **MILLIONNAIRE POOL**, one calculate the SV on 5, 7 or 9 niveaux (compressed) of every qualified member from EXECUTIVE to INTERNATIONAL.

The SV of every member will represent a % relatively to the other SV of qualified members.

The amount of the POOL is given on this %.

## The POWER BUILDER concerns all first orders.

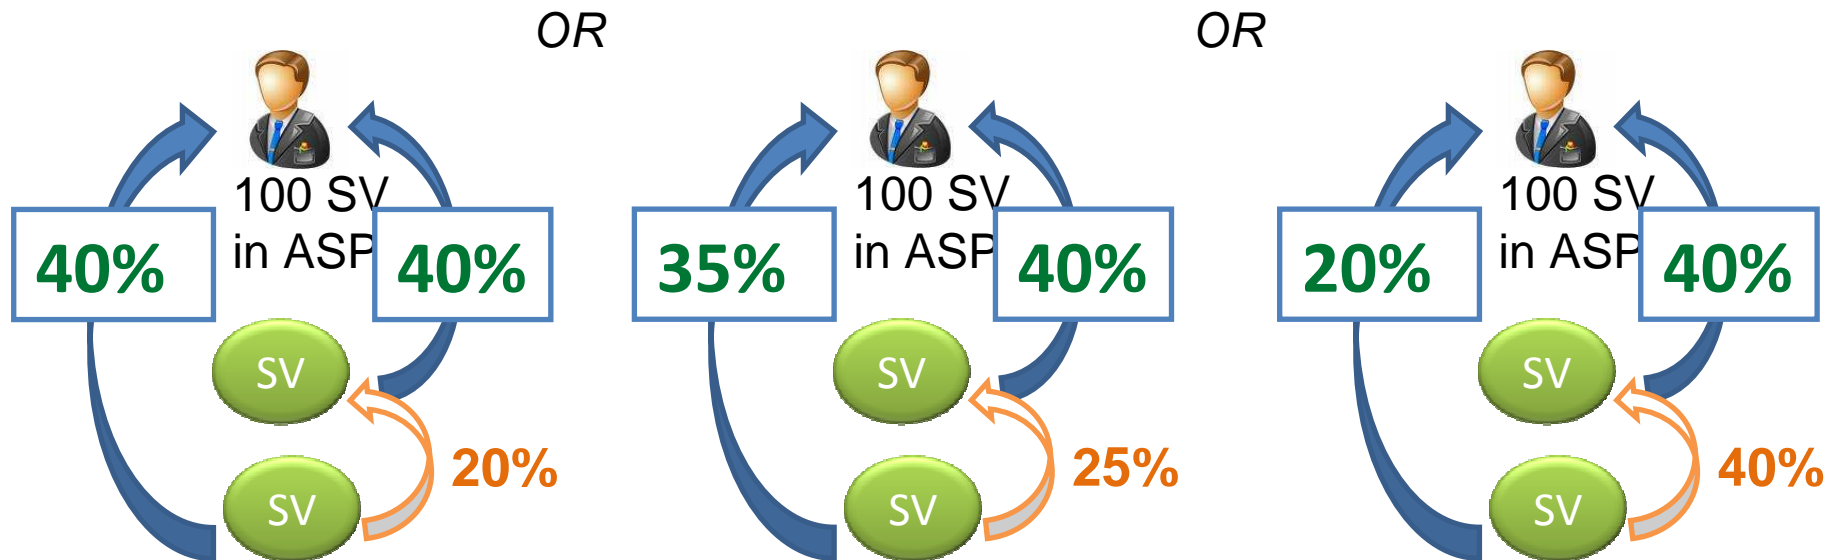

A member that has **50 SV (or more)** earns **20%** of all first orders of his 1<sup>st</sup> level.

A member that has **50 SV with ASP** earns **25%** of all first orders of his 1<sup>st</sup> level.

A member that has **100 SV with ASP** earns **40%** of all first orders of his 1<sup>st</sup> level and **20%, 35% or 40%** of all first orders of his **second level**.

Again a small detail...

All the % given in UNILEVEL are done « **after** » a **compression** of the members without SV in the tree making carry up the volumes.

But you know it ...

The best plan of the world, as rich, unique, without faille and effective it can be, cannot give the full measure of his potential without products and services of exception !

It is why Youniverse World launches at the start an exceptional cosmetic range, of which she has the exclusive rights and leaning on an unique technology in the world.

The survey of 3 others new products are already finished and will see the day in coming months..

Services based on SMS and other sophisticated communication tools will be also present since the start..

Finally the beta version of the 3D world of Youniverse World, pure convergence of the Social Networking and the e-trading and making of Youniverse World an unique company in the world is going to see the day soon.

Hum ....

I hear that many say themselves  
that a little time is necessary to  
build a perpetual organization...  
and that the company starts... and  
that a little time is necessary to  
consolidate a big organization...

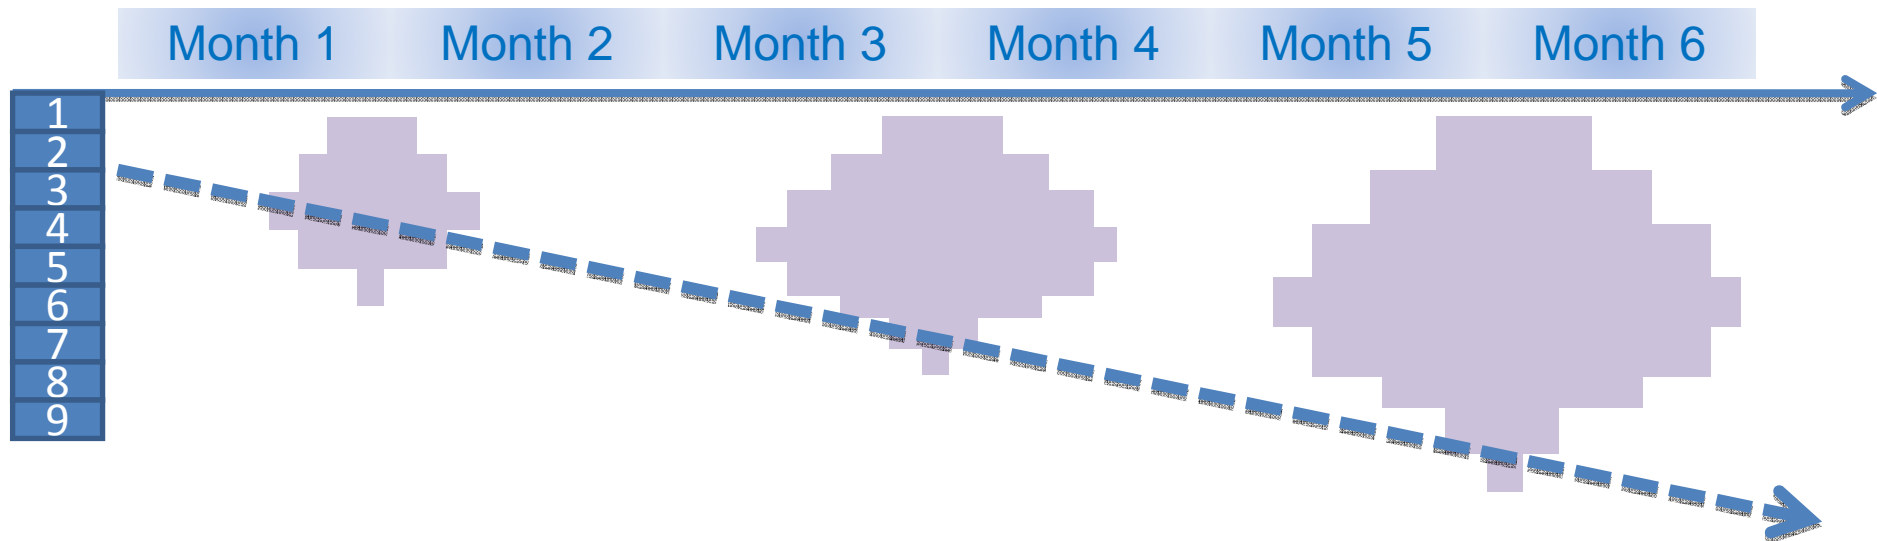

Follow me then...

**All professionnals of Social Networking know that...**

See several months are necessary to a network to attend the depth.

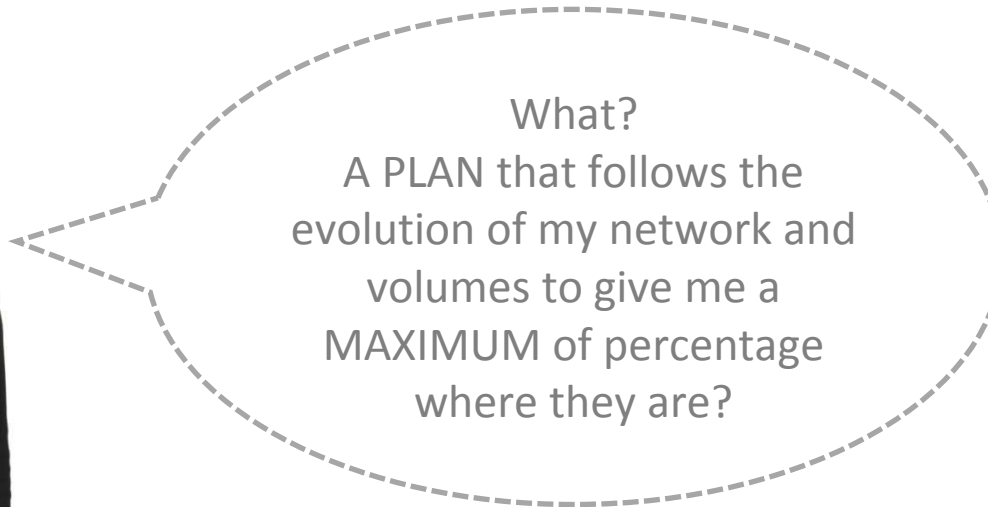

At the start, Volumes are concentrated on the 1<sup>st</sup> levels and enlarge towards the depth.

**Then why casting the PLAN of Youniverse with the % in depth that doesn't serve to anyone ?**

**Why not to OPTIMIZE incomes while following volumes, in the time, and where they are?**

Yes, a dynamic plan in 4 Phases that follow the evolution of the development of networks of Youniverse!

But **NO ONE EVER**  
made that!  
Quickly so tell me how  
that works !

First, during the first months, the plan with the explosive % on the 1<sup>st</sup> Levels, where the volumes are at the start.

**Every passage of a plan to another is conceived to Increase and to OPTIMIZE incomes.**

**All advantages acquired on a plan are preserved in the next plan.**

**We use the « DYNAMIC COMPRESSION » to concentrate volumes highest possible in the 1<sup>st</sup> levels.**

**Youniverse created the « ELEVATORS »: the QUALIFYING PACKS permitting to be qualified for the corresponding levels « immediately and without other condition as the monthly qualification » to discern compensations between 4 to 7 levels and this during 3 or 4 months!**

If I plug myself ears,  
do you show me  
pictures of  
remunerations?

**Yes, of course, but I will only show you the first 2 PLANS in synthesis and an idea of the 2 other progressive plans.**
